on simple snacks including kabab, desserts and a slew of unique beverages.

Seoul Startup Hub to total area of 23,659 square meters, allowing support for 62 additional startups.

In order to become a residing startup at Seoul Startup Hub, it must be less than seven years since a startup was established. Also, startups must cover the future growth engine sector that is fitting to Seoul's business ecosystem such as information service, bio, health, IoT and high-tech products.

In May, Seoul Startup Hub will recruit tenants where about 130 startups

will be provided for young creators so that a youth community can be created where they can work and live together harmoniously. At Jinyang arcade, new spaces will be located where self-published writers who want to release their books can work with printing businesses at Sewoon arcade while readers can purchase the self-published books. Inhyeon underground shopping center will house printing school, studios and exhibition spaces.

Effort to revive the pedestrian culture will go hand in hand. The vitality created from industrial regeneration will spread along the pedestrian network. Last September, the Sewoon ~ Cheonggye/Daelim arcades were connected through overhead pedestrian bridges and pedestrian decks. By 2020, a 1km-long pedestrian path will connect 7 buildings in Sewoon arcade stretching from Daelim and Sampung to Jinyang arcade which is connected to Toegye-Ro. Upon the completion, the path will serve as the North-South
