The team visited the Metropolitan Manila Development Authority and the Metropolitan Integrated Control Center to analyze the urban infrastructure of Metropolitan Manila and share know-how. This visit was arranged for the promotion of actual project for induction of additional city buses and

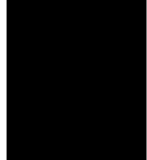

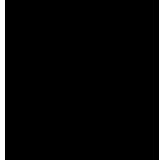

IoT Technologies

time, and concentration rate. The collected big data can be used for the revitalization of the Shopping Center, as well as for the promotion of public safety.

From high school graduation candidates to those aged under 34 who reside in Seoul, as well as university students or soon-to-be graduates living in Seoul, are qualified to use the Free Suit Rental Program for Job Seekers and rent suits free of charge up to 10 times a year.

Those seeking to use the rental service should make a reservation for the visiting schedule (date and time) on the official website (job.seoul.go.kr
