

Jeongneungcheon Elevated Highway Reopened to Traffic

Jeongneungcheon Elevated Highway, part of the Seoul Inner Ring Road, was closed to traffic for repair

Effective midnight of March 19, 2016, the Jeongneungcheon Elevated Highway, part of the Seoul Inner Ring Road, was reopened to traffic.

The Seoul Metropolitan Government (SMG) reopened the 7.5km-long Jeongneungcheon Elevated Highway, which was closed to traffic as of midnight of February 22, 2016 after a serious defect was identified during the spring safety check. The reopening was two days ahead of the schedule. ([Go directly to press release about the said highway closed to traffic](#))

The roads reopened to traffic are the s r e the Jeon lone t.
