

Seoul Implements Special Safety Measures Against Terrorist Attacks

In response to a recent increase in terrorist threats, the Seoul Metro has established special safety measures along Seoul Subway Lines 1 through 4. The new safety measures, aimed at preventing terrorist activity in subway facilities, will remain in place until the citywide terror alert level returns from substantial back down to moderate.

New measures not only include more frequent announcements in subway stations and cars regarding safety precautions, but also involve tighter inspection and safety procedures. These measures, in addition to Seoul
